

HLTAID007 PROVIDE ADVANCED RESUSCITATION

Description

This course provides the skills and knowledge required to provide advanced resuscitation techniques, life support, and the management of a person who is unresponsive and not breathing normally until the emergency services arrive.

The course is suitable for anyone new to advanced resuscitation training and for those wanting to update their skills.

Course cost / duration

Cost: \$190.00 per person
Course duration: 5.5 hours (8:30am – 2:00pm)

Group bookings:

Melbourne metropolitan area - minimum course cost is based on a group of 8 people
Victorian country locations - minimum course cost is based on a group of 12 people

Course content

- Perform the steps of the DRSABCD basic life support action plan
- Use of an Automated External Defibrillator (AED)
- Cardiopulmonary resuscitation (CPR)
- Management of the unresponsive casualty
- Safe manual handling of a casualty
- Legal responsibilities / duty of care
- Standard precautions for infection control
- Benefits and complications when providing oxygen
- Use specialised equipment such as: oxygen therapy equipment, oropharyngeal airways, Bag Valve Masks (BVMs), Oxyviva and suction devices

Assessment

A Statement of Attainment will be issued on successful completion of a range of assessments. This may include written questionnaires, verbal interviews and the observation of practical skills such as following the prompts of an AED and completing CPR on a manikin on the floor.

Statement of Attainment

HLTAID007 Provide advanced resuscitation

All participants must provide a valid Unique Student Identifier (USI) prior to the release of a Statement of Attainment. If you do not have a USI you can create one on www.usi.gov.au.

The Australian Resuscitation Council (ARC) recommends renewing CPR skills on an annual basis.
